**General Information
Scripts & referrals
requested in your consultation**

It is important for the GP prior to writing referrals/scripts **to assess your current health status.**

Your GP is then responsible for ensuring your specialist or consultant physicians advice is integrated into your ongoing care.

Referrals to specialists or consultant physicians are **generally valid for 12 months.**

They are responsible for managing specific conditions , for example Ophthalmologist -glaucoma.

Your overall management and the continuity of your care is important to us at **GPC**

It is ideal that you ask your **GP** for any scripts or referrals **as part of your consultation.**

There is no additional cost for this service.

**Scripts & referrals
requested outside a consultation**

GPC can meet your request for scripts and referrals outside a consultation, however, we need to advise you of the following.

This service can only be offered for **repeat scripts and or referrals** which you have previously discussed with your GP.

Your GP may request to see you prior to writing referrals/scripts **to reassess your current health status.** The reception staff will advise you if this is required.

Turnaround

The turn around time for referrals and scripts is **three working days from the time the doctor receives the request.**

E.g. if you request on Thursday and your regular GP doesn't work till Monday, it will be three working days from the Monday.

Urgent scripts requested on the day.

GPC recognises there are times when you may need urgent scripts.

If your GP is not working that day this will be referred to the Doctor on Call in the practice .

Session times

Session times may vary due to leave of absence.
