

Patient Information

Restricted appointments Saturday 10th March 2018

On the weekend of 10 & 11th March 2018 we are installing a new server and upgrading our computer hardware.

There will be one GP on duty who will be dealing with ***urgent appointments which require attention on the day.*** We will not have access to patient files for your history , but can attend to you on the day.

Our online booking service HotDoc ***will be off line from Friday COB while the server upgrade occurs.***

Please only call the practice on Saturday if you need an appointment for that day , we will not be taking any other bookings.

This is a major installation and is done over the weekend to minimise impact to our patients.

Apologies for the inconvenience .

Yvonne Practice Manager
